

AMENDMENTS TO THE CLAIMS

The below listing of claims replaces all prior versions of claims in the application.

Listing of Claims:

1. (Currently Amended) ~~A file~~An image reproducing apparatus comprising:
 - an attacher to be attached with a recording medium in which a plurality of folders for managing a plurality of image files are formed;
 - a folder number detector for detecting folder identification numbers ~~of~~which respectively represent the plurality of folders formed in said recording medium;
 - a folder number displayer for displaying on a screen the folder identification numbers detected by said folder number detector;
 - a selector for selecting any one of the folder identification numbers displayed by said folder number displayer;
 - a file number detector for detecting a count of the number of image files managed by the folder holding the folder identification number selected by said selector; and
 - a file number displayer for displaying the count detected by said file number detector on the screen on which the folder identification numbers are displayed by said folder number displayer, wherein the count of the number of image files and the folder identification numbers are displayed at the same time.
2. (Cancelled)

3. (Currently Amended) ~~A file~~An image reproducing apparatus according to claim 1, further comprising:

a total file number detector for detecting a total number of the image files recorded in said recording medium; and

a total file number displayer for displaying the total number of the image files detected by said total file number detector.

4. (Currently Amended) ~~A file~~An image reproducing apparatus according to claim 3, wherein said total file number displayer displays the total number of the image files on the ~~same screen as the screen~~ displaying the folder identification numbers.

5. (Currently Amended) ~~A file~~An image reproducing apparatus according to claim 1, wherein said selector is able to select another file identification number after a display operation of said file number displayer.

6. (Cancelled)

7. (Currently Amended) ~~A file~~An image reproducing apparatus according to claim 1, further comprising a folder creator for creating a new folder in said recording medium when a folder creating operation is carried out.

8. (Currently Amended) ~~A file~~An image reproducing apparatus according to claim 1, further comprising a folder creator for creating a new folder in said recording medium when a writing of a ~~file~~an image file to a designated folder is instructed in a state that the number of files managed by the designated folder indicates a predetermined value.

9. (Currently Amended) ~~A file~~An image reproducing apparatus according to claim 1, further comprising a file mover for moving a ~~file~~an image file from a folder to another folder when a file moving operation is carried out, wherein said another folder is arbitrarily selectable from among the plurality of folders formed in said recording medium.

10. – 12. (Cancelled)
